LAUNCH

2005

Was started in Hong Kong, and expanded in Bangladesh, China, Taiwan and Turkey. Also have local sister concern "Leed International".

BUSINESS ERA

From 2005

We have started in a full range of Textile Solution support our client to set up textile composite factory. Complete project case: Chaity composite Group in Sonargaon. And Eusebio Sport Ltd. relocated factory from China to Bangladesh full factory set up in KEPZ Including planning, design, construction and commissioning (CSA & MEP).

OUR SPECIALITY

2005 To 2018

POLARVISTA works 'Turnkey' basis projects. We are specialized in providing Energy Solution Systems, Lighting Solution, Automation and Digital System. Our Green LEED Solution for USGBC LEED certification support our client to pursuit Greener Smarter.

RECENT ADDITION

From 2019 To NEXT

We are serving the entire Bangladesh with a wide range of service and solutions for the past 14 Years. Now we are participating on both industrial/private & govt. projects all over Bangladesh.

JOURNEY of
POLARVISTA

U.S. GREEN BUILDING COUNCIL
MEMBER

Polar Vista International Co., Ltd. is a pioneer LEED Green Building Consultancy company in Bangladesh with Silver Membership of US Green Building Council.

We have direct access to all resources and tolls available at USGBC. Currently we are consultanting Five(05) projects from which one is already LEED Gold Certified with 75 points.

Mr. Haw Chu Shiau is a LEED AP of BD+C (Building Design & Construction) and leader of a professional team to serve you better for your Green Building Certifications.

Mr. Haw Chu Shiau
(Building Design & Construction)
CREDENTIAL NO.: 10829880-AP-BD+C

LEED (Leadershipn in Energy & Environmental Design) is an internationally recognized green building certification system. It provides third party verification that this building was designed and built in an environemntally sustainable way achieving a high level of LEED certification.

Certification level are basic Silver, Gold, Platinum.

LEED measures energy savings, water efficiency, carbon emissions reductions, improved indoor air quality and stewardship of resources.

Developed by the U.S. Green Building Council (USGBC), LEED provides building owners and operators a concise framework for identifying and implementing practical and measurable green building design, construction, operations and maintenance solutions.

We are committed to environmental awarness and we strive to do our part

BUSBAR TRUNKING SYSTEM

Polarvista is dedicated supplier of electric product for over 10 years. It has done so many projects in Bangladesh, with four key business: High and low voltage busway, Switchboard & Intelligent components, Copper and aluminium material & Tin coated copper strip, Cable tray support & Hanger.

Low Voltage Busway

LV Series Compact Busway

LM Series Compact Busway

Pro-D Data Center Busway

MM Powerplus Busway

LB Lighting Busway

High Voltage Busway

GFM series common box enclosed busway

Q (B) JGM series insulation tube busway

QLFM series isolated phase busway

GIL six sulfur fluoride gas insulated enclosed bus

PRO-D DATA CENTER BUSWAY

Specification:

. 3P4W, 3P5W

. 125/160/250A

. Operation Voltage 380/400/415VAC

. IP 32

Application:

. Data Center

. Bank

. Commercial Industries

. Malls

Overview:

As a high efficient intelligent power distribution system Pro-D Data Center Busway can be applied specially in data center and critical power supply. The design with low magnetic aluminum alloy housing minimizes the weight of the busbar, and greatly reduce the influence of eddy current and hysteresis loss on other electrical and electronic devices. Pro-D Data Center Busway has multiple power quality monitoring function, e/g/ monitor the busway temperature rise, standard communication data interface for real-time collection, statistics and upload operation data. It can provide users with the function of whole life cycle monitoring and maintenance.

Features:

. Efficient & flexible, unmatchable flexibility, scalability fast connection, ease of installation & maintenance, space saving.

. Modularity, interchangeable, varying power densities can be fit in the same busduct infrastructure

. Reliable & safe, low resistance, EMI & EMS compliance, automatic disconnection & interlock mechanism

. Smart & intelligent, multi-function monitoring including power quality, 7 standard communication data interface, remote control function.

TROLLY BUSBAR

POLARVISTA has a professional "Workshop assignment from the layout process design and other electrical fixtures, and a qualified professional electrical installation and commisioning". The team for your modern workshop from visual effects, practical effects to green energy have reached a new height. Lighthouse electrical installation safety, energy conservation, aesthetics, is Polarvista people on their own requirements.

Widely used in garment industry and concentrated power supply

SUBSTATION SYSTEM

Polarvista is the Authorized Distributor and Supplier of WETOWN Distribution Panel Systems. WETOWN Distribution Panels produced in compliance with the international standards.

PROPERTIES

Standard: IEC/BS EN 60439-3
Voltage: 230/240V
Current: 32/63A
Insulation Voltage: 500V AC
Short Circuit Withstand: 16 KA
Protection Degree: IP 4X
Color: RAL 7035

GFP SERIES DISTRIBUTION PANEL

GFP series 32-63A Feeder Pillar Panel Systems can be used for decorative and functional purposes with its ergonomic structure.

GDB SERIES DISTRIBUTION PANEL

GDB series 32-800A Distribution Panel Systems can be used for providing power in various facilities such as factories, hospitals, buildings and sky-scrapers.

GSP SERIES DISTRIBUTION PANEL

GSP series 800-5000A Panel Systems can be used in power distribution with its modular structure and short-time withstand capacity up to 150kA.

All the insulating materials are made of halogen-free, non-flammable and fire-retardant (V0) materials.

SOLAR PANLES are photovolatic power sources capable of recharging batteries. The minimum battery size and solar panel output required depends on:

* The average current drain of the system
* Maximum time the battery must supply power to the system without being charged
* The average current drain of the system the location of the site.

HIGH QUALITY SOLAR MODULE

MONOCRYSTALLINE SILICON SOLAR MODULE | POLYCRYSTALLINE SILICON SOLAR MODULE

- High efficience solar cells ensures high performance of solar module and create more power in peak hours.

- 3.2mm high transmissive Low Iron tempered glass, EVA laminate and water-proof TPT yield long life modules while enhancing cell performance.

- Bypass diodes to avoid hot-spot effect.

- Pre-cable with fast-connecting systems for convenient installation.

- Stable, heavy duty anodized aluminum frames with convenient mounting-access, for high wind-pressure.

- 25-year Limited Power Warranty.

- Polarvista Photovolatic (PV) modules offer industry leading high performance and are designed specifically to meet our clients demands for residential, commercial and industrial use from installation to multimegawatt power plants.
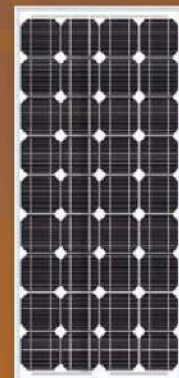

Warranty And Certifications:

* 5 Years workmanship, 10% 90%, 25 years 80% power warranty
* ETL UL-1703 ISO 9000:2000
* CE TUV IEC61215 IEC61730

Technical Specification:

Charactesristics	Details
Solar Cell Size	156mm X 156mm (6.14" X 6.14")
Module Dimension (L x W x T)	1968 X 1000 X 50mm
Front Glass	4.0mm Tempered
Junction Box	IP65 Rated
Output Cables	1000mm length cable/compliable with MC IV connectors
Frame	Anodized aluminium
Weight	24Kg
Operating Temperature	-40~+85°C
